Position/Title:	Position 1: AI Engineer Position 2: Frontend Engineer
Proposed Internship Duration:	90 days
Job Description & Requirements:	<p><u>Position 1: AI Engineer</u></p> <p>Job Description:</p> <p>As a STEM Internship AI Engineer at Jobutify, you will have the exciting opportunity to contribute to cutting-edge projects aimed at enhancing our platform's capabilities. Your primary responsibility will be to develop an OpenAI LangChain supported by advanced prompts. Additionally, you will collaborate on building models capable of predicting salaries using various available methodologies. This role offers hands-on experience in AI engineering, research, and model development, providing a unique opportunity to make meaningful contributions to the future of job applications. Join us at Jobutify and embark on a journey to revolutionize the job application process while gaining invaluable experience in the field of AI engineering. Apply now to be part of our dynamic team!</p> <p>Job Requirements:</p> <ul style="list-style-type: none"> • Proficiency in Python and JavaScript programming languages • Ability to work independently, conduct research, and implement new features • Familiarity with OpenAI API and LangChain Experience in prompt engineering and machine learning for prediction tasks • Strong communication skills, with English as the medium of instruction • Eagerness to learn and adapt to new technologies and methodologies <p>No. of vacancies: 3</p>
Job Description & Requirements:	<p><u>Position 2: Frontend Engineer</u></p> <p>Job Description:</p> <p>Jobutify is an innovative AI copilot designed to revolutionize the job search experience. Our platform leverages sophisticated AI features to assist users in finding their ideal jobs seamlessly. We are looking for a talented Frontend Developer with expertise in React, state management, Tailwind CSS, and JavaScript libraries to join our dynamic team and help us build an intuitive and engaging user experience.</p> <p>Responsibilities:</p> <ul style="list-style-type: none"> • Develop and maintain user interfaces using React, ensuring a seamless and responsive user experience.

- Implement state management solutions (e.g., Redux, Context API) to efficiently manage application state.
- Utilize Tailwind CSS to create visually appealing and consistent designs.
- Integrate and utilize various JavaScript libraries to enhance functionality and performance.
- Collaborate with backend developers to connect front-end components with server-side logic.
- Optimize applications for maximum speed and scalability.
- Troubleshoot and debug issues to ensure optimal performance and user experience.
- Participate in code reviews and contribute to a culture of continuous improvement.
- Stay updated with the latest industry trends and technologies to ensure our platform remains at the forefront of innovation.

Job Requirements:

- Proven experience as a Frontend Developer, with a strong portfolio of projects using React.
- Proficiency in state management libraries (e.g., Redux, Context API).
- Experience with Tailwind CSS and its utility-first approach to styling.
- Strong understanding of JavaScript and familiarity with popular libraries and frameworks.
- Experience with responsive and adaptive design principles.
- Knowledge of RESTful APIs and how to interact with them.
- Familiarity with version control systems, specifically Git.
- Strong problem-solving skills and the ability to work independently and in a team environment.
- Excellent communication skills and the ability to articulate complex technical concepts to non-technical stakeholders.

No. of vacancies: 2

Internship Period:

Summer Term 2024

Full-time placements with a duration of no less than 4 consecutive weeks (28 calendar days)
